Louisville Manufactures-Furniture. It has been said that "man shall not live by bread alone," and it may as well be said that he cannot live in a house alone. He must have furniture. He must have chalrs to sit to, beds to sleep on, tables to eat from, and various other articles absolutely necessary to health, and decency, and comfort. The time of living in caves, and sitting on blocks, and sleeping on the ground is Three villains, who are believed to be the notoripast. Furniture is now as necessary as a wife or a house itself.

Who would think of keeping house now a days without chairs, without hedsteads, without tables, or even without a crih or a cradle for the baby? No one would think of heing without such things. The difficulty ln onr times is that too Thruston and a little hoy were sleeping. He many things are wanted hy housekeepers, and especially young ones. It taxes all the ingenuity aroused Thruston. He snatched his pistol, and of furniture makers to keep up with the cultivated wants of young America. A mere catalogue of the names of the various articles of furniture manufactured in this city at this day would astonish our grandmammas if they could see such Commission & Forwarding Merchants

Fortunately we have manufacturers of furniture in this city who are second to none in the country, and who have the taste and the capacity to meet every want of every body. They manufacture in the latest and best style all that is needed in a well furnished house. Their articles, moreover, are of all prices, from the highest to the lowest, so as to suit the rich and the poor. But none of heir work is bad. They do not make farniture to look pretty, sell at auction, and last no time .such work is done in Cincinnati and other places. There are no manufacturers in the country who make hetter furniture than is made in Louisville

There are some thirty-two different persons and firms engaged in the manufacture of furniture in this city. They employ, in the aggregate, about three hundred and fifty hands, and use a capital of \$500,000. The business is very nuequally distributed, but an average of the whole would give some ten hands and \$15,000 of capital to each concern. John M. Stokes & Son, however, employ more hands, and more capital, and make more inrniture than a dozen of the smaller manuacturers, and hence an average of capital, mehanics, &c., gives no just idea of the business sapacity of any one concern.

As much of the business done by these manu facturers is upon a credit, the absolute capital em ployed by them does not represent the entire fur niture business. In buying material upon credit and working it up into furniture, and turning their money over more than once per year, the entire business will reach one and a half millions of dollars. And for the purpose of doing business of this kind on credit the banking capital of Louisville, which is very abundant, affords many facilties. Indeed, there is no point in the country better suited for the manufacturer of furniture than Louisville, where material is easy of access,

by railroad and river, and capital abundant. The principal manufacturers engaged in the furniture business in this city are the following : Augustus Ambrose, F. Langenfeldt, Andrew Brandt. James McCullough. Baith & Brother, Wm. Maguire, F. Meres, John Clock. A. F. Coldeway, Algis Mezoer. W. C. Dodge, Mathias Miller,

Dougherty & McCorkill. W. C. Moore. Denhardt & Hahnt, J. M. Monohan. Charles Dupre, Newmschwander & Co Philip Frick, Rumselmeir & Co. John M. Stokes & Son James Harmann, John Simm, Frederick Hellge, Clement Scheldt, George Heas, John F. Thompson, A. Hiedt, Wm. Timewell.

WEST BADEN SPRINGS, INDIANA. - This pleasant resort, under the management of Dr. J. A. Lane, is rapidly growing in popular favor, as is evidenced by the increasing numbers of its patrons and guests. The Springs are pleasantly located in Indiana

The botel for the accommodation of the visitor is situated on a high, natural mound, securing all the advantages of an elevated location. The grounds are haudsomely laid out and densely shaded by oak, beach and other trees. The surrounding country abounds in wild game, and affords a most excel lent field for hunting, while Lost river, only three-fourths of a mile distant, will yield ample

sport to the disciples of Izaak Walton. The watera are said to possess rare medicinal qualities, and are good for all classes of invalids. The attendance is quite large, and select .-Among the gnests are J. H. Shroeder and family, J. P. Curtis, James I. Lemon, Mr. and Mrs. Carson, Marshall Halbert, and other of our citizens. Some of these have just returned, and give the most glowing accounts of the excellence and attractiveness of the springs. To those who wish to spend a few days away from the din and dust and heat of the city, and enjoy the luxnry of pure air and delicious breezes, and refreshing gales, and the manly sports of hunting and angling, we would say pack up without delay, and start for the West Baden Springs.

ROBBERTES IN DAYLIGHT .- An individual, with ascality prepense, let locse his inclinations on Wednesday evening, and played havoc with the property of several bachelors who room over the Chrystal Palace. He stole a fine cloth coat from John McMinn, a forty dollar coat, bran new, from Charley Thruston, just from the tailor. Geo. Stoke was likewise victimized to the extent of some jewelry, and four dollars in counterfeit bills. and a pair of bootees. One of the victims observed the fellow come out of a room, but his suspicion was allayed hy accing him go towards the hall of the Sons of Malta. Being himself a member of that order, he could not helieve a man would steal almost within its sacred precinct. He is satis fied now, however, that men are prone to evil, and this particular one will steal, and get off safe with his booty. (Plsy upon Stoke's bootees.)

BURGLARY-A SHOR SHOP CLEANED OUT .- The shoe atore of William Rexter, on Fourth street, below Main, was entered by burglars about 2 o'clock yesterday morning, and robbed of forty pair of boots and shoes. The rascals cleaned ont the stock, leaving only an odd boot behind. The door was pryed open with a chisel and crowhar, and nothing was known of the operation until after daylight this morning. The night was intensely dark, and the gas was not lit in the lamps as it should have been. Rexter was robbed at the same place, and in a similar manner, three

years ago. A DARK NIGHT .- From midnight to daybreak yesterday morning, the darkness was Cimmerian. None of the street lamps were lighted. The rain fell in torrents for several hours, and must have been an extraordinary rain, as a local of a city paper says "the splashing of the rain made so much noise that persons meeting could not see

each other!" Tentonic, but not graphic. A correspondent of the Mount Sterling Ninth Legion recommends Judge James W. I was at Newport several days. It is certainly, as to climate, the most refreshing shipped to Chicago, Cincinnati and Indianapolis. ,641 bushelz were received by the Louisville and summer resort in the country. It is never hot, and two days during my stay while you were, doubtless, swetting with the thermometer among Connor and another boy, near this city, a few days since, was continued by Esquirea Clement and Matlack until next week. Conner is yet in a the 90's, the mercury stood there at 56, making overcoats pleasant. The sea bathing was glorious; the water being of a equable temperature, and the surf fine. There were a goodly number of admitted to bail in \$600 each, and Smith was visitors, though the hotels were by no means full. The cottages are generally occupied, and the number of handsome equipages is very large.
The charge for public hacks being \$200 per month, everybody who can afford to spend the summer there sets up his own carriage in self-defense.
I came from Newport to New York by boat, the trip eastward, having received a month's fur-Metropolis, a very fine boat. Although the weather was perfectly clear and calm, we encountered the usual rough sea off Point Judith. The ocean lough. His place during his absence is supplied by Mr. Pat. Leonard, an old attache of the road, swell was very great, and a number of passengers paid tribute to Neptune. I wisely retired to a berth in a portion of the boat which did not rock much, and eacaped sickness. New York is ex-ATTEMPTED BURGLARY .- We record elsewhere tremely dull now, there is nothing of public in-terest transpiring there. The city has many two burglaries, and others were attempted. They tried to get into the store of Mrs. Ziegler, corner strangers, principally merchants, making fall purchases, the last day or two hringing a great many from Kentucky, who remained to vote. I felicitate you upon Magoffin's election, and upon Simma', and condole with you upon Holi's defeat. BALTIMORE, August 10 The Richmond Enquirer of Tuesday, contains the following from Gov. Wise in reference to his famous letter. The Enquirer says "a press of copy prevents comment for the present."

RICHMOND, VA., August 9, 1859. GENTLEMEN: In your editorial of this morning is to some unknown correspondent, published in the New York papers, by whom or who does not

You say that you have no anthority to speak about the matter. I now give you authority to speak all you know about it. An impression is attempted to he made that I have offensively obtruded my advice and interference into New York politics, in a vain and immoral attempt upon mem-bers of the State Committee, to influence the apntment of delegates from that State to the Charleston Convention. Now, a plain statemen of the whole case is, that for some considerable time past I have held a private and confidential political correspondence with Mr. B. Donuelly, No. 3 William street, New York. He wrote nis last spring. I replied, and the correspondence ceased until the 5th of July last, when he wrote to me again the following letter:

My Dear Governor: You will remember my writing last spring, to which I received an answer, and which I would have acknowledged at an earlier day, but supposed your time would be so much taken up with other more important matters, that I concluded to withhold writing you until the present. You will learn from the newspapers, and elsewhere, that those who are in expectation of receiving the nomination at Charles. pectation of receiving the nomination at Charles ton are marshaling their forces as atrongly as pos-sible. This State, which I have watched very closely, with a view of acquainting you of what is going on, will, as matters now stand, send to Charleston aunited delegation in favor of Douglas. Their second choice would be yourself. I give you this information as a fact, so that you may rely upon it. It is barely possible that Wood and others in New York city may succeed in getting up two sets of delegates to the Convention : but tt is my opinion your friends in the South need not expect much support from the Northern States. The South is the only place to count on with any degree of certainty, and if the South should kick up her heels, and refuse to adopt you as her candidate, she will lose all. This you may rely upon. With sny other man from the Southern States than yourself, we would he beaten out of sight. With the South, then, to nack von, there will be a sufficient number of candidates for Congress and Governor, in nomina-tion, who will he able to control a sufficient num-ber of delegates from the Western and Eastern States to give you the nomination, and they will do it to save themselves, well knowing that there is no one hut yourself that can poll the votels of the adopted citizens. The Federal office-holders here are in favor of Douglas, so that at the Charleston Convention, if Mr. Buchanan should convent to be a candidate he won't be able to wet a onsent to be a candidute, he won't he able to get a single squad from this State. If you were once nominated, my God what a vote you would get with Seward against you. You would carry every Northern State excepting Massachusetts, Ver-mont, and possibly Rhode Island. All of the Western States, I am assured, would roll into line again. I am stopping at the Springs here for a few days—having an opportunity of consulting with our friends from different sections of the Union.

I thought it advisable to drop you the enclosed, hurriedly scratched together. If I can be of any service to you, let me know it. If you think it advisable to make a push for the delegates from this State, write me and I will tell you how it can be done, to the best of my knowledge and heliof. Lindhow, Cassidy, and Peter Casser are belief. Ludlow, Cassidy and Peter Cagger are the controlling apirits, and either of these, if they supposed you were not completely in the hands of Fernando Wood & Company, would be your friend. This, I find is their impression, though not publicly expressed. Mr. Wood is a very mart man, and is much feared by the politicians. but his misfortune seems to consist in having no one to hack him. Had he the strength that these others have in the country districts, he would be ar next Governor. But in the country he falls behind, and seems to be very unpopular amongst the farmers and others. Your best way is to keep clear of all cliques and factions; side with

them, it will then be time enough to become iden-tified. Yours truly, B. DONNELLY. hem, it will talk to differ the first truly.

We have reliable authority for stating that a white woman was sold in this city the other day to a negro for the sum of \$50. She remained in his service for a day and a night, and then returned by underground railroad to her master.—He sold her shortly afterward to another negro for the sum of \$30, cash down. This selling of white women to negroes is not eccasional, but is almost an every day transaction, as we have ascertained after some little inquiry. Mr. | Bradley's family is increasing fast. He was married six years ago to Ennice Mowery, who weighed 273 pounds on the day of marriage. She has given birth to two pair of twins, and now eight more, making twelve children in six years. It seems strange, but nevertheless is true. Mrs. B was a twin of three, her mother and father both heing twins, and her grandmother the mother of being twins, and her grandmether the mother of five pair of twins. Extraordinary Case Riopement and Shooting.
[From the London, C. W., Free Press] [From the London, C. W., Free Press]
In the township of Yarmouth, there lives a well-to-do farmer named Marwood Gilbert, owning a good farm, well stocked, and, report says, a pretty good anm of money likewise, who some years since was married to a Miss Blewitt. The sister of Mrs. Gilbert—another Miss Blewitt—was engaged to be married to a Mr. Henry Locke, a young man highly respected, and connected with was engaged to be married to a Mr. Henry Locke, a young man highly respected, and connected with one of the best families in the township of Yarmouth. Everything went amouthly on till the morning of the day on which the marriage was to have taken place. The bridegroom was jubilant, and the expectant hride blushfully joyous. The invitations were issued—the wedding cake was ordered preparations usual to such feature occadered—preparations usual to such festive occa-sions were made. The morning came; the fami-lies were assembled; the neighbors were ready to congratulate, and the parson had a sly smile him self at the mischief he was about to consummate. But one little incident marred the whole proceedings—the "Bride was wanting," and was nowhere to be found! Where was she gone? Her apartments were visiled—the premises searched—but no Miss Blewitt could be discovered. Sarely, she had not, in imitation of the ill fated "the-nevra," hidden herself in an old oaken chest, when,

Certainly not; for there was no such chest in the house. But the unwilling truth soon became known—Miss Blewitt had eloped on the morn of the day that was to have witnessed her unptials—with her breiher-in-law, Marwood Gilhert!" The birds were down. A council was held, and it was resolved that no good would result from the chase. Gilbert had his six shot revolver with him, and he might u-e it. Besides, the bride-groom expectant could hardly he supposed to be particularly anxiona respecting the fate of his de-ceifful inamorita. The guilty couple were, there-fore, left to their own devices. Ahout a month afterwards, however, hack they came? Whether the husband had qualms of conscience, or got ti ed of his new found thame the decourter. his new found flame, the deponent saith no of his new found name, the deponent saith not. A fremendous scene now enaued; the enraged and cheated bridegroom—the weeping and cutraged wife-the indignant brothers—and the gunty girl! Explanations tollowed. The girl—Miss Blewitt—alleged that she was compelled, under threats that she would have her brains knocked out, to accompany Gilbert, and was in great fear of him, while he declared that it was she that of him; while he declared that it was she that played the Delilah's part, and entited him to leave the bosom of his virtnous family for the guilty expedition. Mutual recriminations only perplexed matters, hut, despite the protestations of the man, the brothers of Miss Blewitt swore rengence, and endeavoured to break off the convengeance, and endeavored to break off the con nection. But this was more easily attempted than accomplished. By this time, however, much nuder fear as the girl was, she was in no anch fear now, for her remarks and her conduct discovered that she had hecome infatnated with her paramour. He, likewise, seemed in a way desirous to break off the disgraceful connection, for, being unable to see her, owing to the strict surveillance under which the girl was now kept, he endeavored to correspond. Letters were recentally left ed to correspond. Letters were repeatedly left.

and assignations made; the former were inter-cepted, and the latter frustrated.

By some means, Gilbert understood that he might come for an interview with the girl at 11 o'clock on a certain night. The aignal to be a caudle in the window, and if waved to the left he was to come on. This was one night last week. According to the appointment Gilbert came, and made homself known under a window where the hrothers of Miss Blewitt slept. One of them was brothers of miss Blewitt steps. One of the watching with a loaded gun charged with buckshot, determined to he avenged for his aister's dishonor. The moment the unhappy Gilbert came, the gun was fired through the window came, the gun was fired through the window glass. The shot took effect, entered the man's ibs in a slanting direction, passed through the body, ont at the back. Singularly enough, none of the vitals were touched, the shot passing within a small distance of the kidneys and intestines, and nut three quarters of an inch of his spine. Gilbert swears, as soon as he recovers, to shoot he whole trihe of Blewitts, and the two brotners have been arrested to answer the charge of shoot-

ing with intent to kill. THE CREED OF THE SPIRITUALISTS .- At the Spiritualists' Convention, held last week at Plymonth, none of them, and when it is determined who are to be delegates, and also who has control of the following creed was reported from a commit-

AN INTERESTING TRIAL IN VIRGINIA. - The

The charge against her was that, in April last, she attempted to kill her mistress, (who was confined to her hed from protracted sickness, and was very feeble, and entirely helpless,) by cho-king her, dragging her ont of bed, and brntally coals of tire and hot embers. The probability is that she would have succeeded in killing Mrs. T. very soon, had she not been prevented by the arrival of the family physician, who found her upon the floor in a state of insensibility. The prisoner at the time of the commission of the deed was about responsibility for crime commences, or, in other words, at what age a person is, as the law writers say, delt copar. This question, so far as we are advised, has not been settled by the judicial decisions of this country; the tendency of the de-cisions in England heing to make it depend rather on the intelligence and capacity to dissinguish hetween right and wrong, than on the sge of tha party accused. FRIDAY, AUGUST 12, 1859. Reading Matter on Every Page.

Perpetual Leases. In an article of yesterday we alluded to the custom in other cities of selling lots for a rentcharge rather than for the gross value. We wish now to call the attention of property owners more

particularly to our suggestion. There are thousands of feet of unimproved ground in portions of our city sultable for recidences and adapted to business. Main, Market, Jefferson, Green, Walnut, Chesnut, and Broadway, together with some fifteen or twenty of the cross streets, present innumerable vacant lota almost in the very heart of the city. This ground is lying idle, and eating up the owners with taxes, while it rests as an incubus upon the prosperity and growth of the city.

There are hundreds of persons in Louisville, and hundreds who would like to come here, who upon them, either for residences or for business in a desirable part of the city, on the atreets named, would cost from one to twenty thousand quack, &c. dollars, while a lot for a dwelling house would cost from five hundred to ten thousand dollars. The smallest sums named is too much ready money to be raised by the poor, and the largest sums cenld not be easily spared out of the business capital of our merchants and manufacturers.

The usus | payments for property when sold here are one-third cash, and the balance in one and two years, with Interest. This would make the purchaser of a \$500 lot pay \$166 66 cash, \$176 66 at the end of the first year, and \$186 66 at the end of the second. If the lot were \$1,000 the payments would be \$338 33 cash, \$353 33 at the end of the first year, and \$373 33 at the end of the second. These payments are too heavy for a poor man who saves from his daily earnings a mere pittance. Such payments prevcut him from buving a lot until old age comes upon him and deprives him of his greatest worth as a citizen. It takes him nearly a life-time to make clear money enough to buy his lot, to say nothing of sufficient savings to erect a house after the lot is purchased and paid for.

And if we turn from the poor man to the wealthy merchant and manufacturer, but few even of these classes can spare money enough from their business to pay ten or twenty thousand dol- lows: lars for a lot, and then erect a snitable building upon it. Their paymenta, according to cuatom here, would be, for the \$10,000 lot, \$8,338 88 cash. \$3.588 28 at the end of the first year, and \$3.783 88 at the end of the second. For a \$20,000 lot they would have to pay \$6,666 66 cash, \$7,066 66 at the end of the first year, and \$7,466 66 at the end of the second year. These payments are large, when five, ten, fifteen, or even twenty thousand dollars more must come out of their business to build a residence or business house on the lot.

Now, the plan we suggest svoids these heavy payments for ground. We propose that our property holders shall inaugurate the custom of other cities, and sell their vacant lots for a rent-charge simple and will work well here as it has in other a sly way of insinuating that no other paper in places. It has built up some of our greatest the city got that letter. The truth, neverthless cities, and will build up Louisville if it is gener- is, that it came to us also. We declined, howerthat it is the very thing we want.

cash, and the balance in one and two years, he | the hoax of our neighbor's own correspondent! binds himself and gives the lot as security that there shall be paid for it \$3°, \$60, \$600 or \$1,2 " per year forever. In other words, the urchaser pays ax per cent, on the value of the let f rell time, and these payments are made an thereby made easy, and the money that, according 's ale present custom here, would go for the payment of the lot, can be used for huilding a ouse or in the prosperous conduct of business.

This plan would enable many persons to buy lots, who, under the present system, have not the ready money to purchase, and if it were adopted many of the lots now lying idle in the city would at once be improved. And the plan would make the very surest income for capitalists. These rent charges could be transferred just as lots from one to another, and they would be a species of investment which much of the capital now used in shaving notes, buying atocks, &c., would seek. They would be the very best thing in which the estates of infants, widows, &c. could be invested, and the parent could leave the son or daughter no better estate than a perpetual rent-charge upon lots thus sold and imp: oved by

We hope that these suggestions may meet with approval by the owners of vacant lots in the city who have been for years paying taxes and losing interest on their profitless investments. The cas tem here among some property holders of leasing for a term of a years, and revaluing every five years is a very bad one for the growth and prosperity of the city. It is oppressive on the lessee, and can never redound to the prosperity of the city .-The best plan is to value the property and sell ont at once for the interest upon that valuation, to be paid annually or semi-annually for all time to come. It as fair for the seller as the buyer, and much better than any other plan for the growth and prosperity of the city.

It is not astonishing that the Jonral le sore under the bitter curses it is receiving from its own party friends for deceiving them as to the recent election, and esneing them to lose the money which they were foolish enough to bet on its false statements, but it is rather surprising that it has the hardihood to come ont and defend the recklees and false dispatches it forwarded to Tennessee, and to denonnce a dispatch we sent to the Nashville Union. That dispatch was as follows Louisville, August 8.

Returns come in better and better. Magoffin's majority 12,000! Boyd's 15,000. Twenty majori-ty in Legis.ature on joint ballot. Eight Congress-

When it was sent we aimed to be correct, and with all the information before us we believed to be strictly so. The returns were coming in gloriously, and the Journal was so dispirited that It did not even have the courage to sum up the figures it published. The Ashland district, which was regarded as in doubt, we had carried, and the returns from every quarter showed heavy Democratic gains. We had reason to believe that those gains were general, and had they continued so throughout the State, Magossin's majority would canary, in a sweet but low tone. This has been have summed up 12,000, and Linn Boyd's been 15,000. But we met with nnexpected reverses in the Sixth and Ninth districts, which lost us two members of Congress, of whose election the best informed Democrats had never entertained the slightest doubt, and cut down Magoffin's majority to between 8,000 and 9,000, and Boyd's to 11,000 or 12,000. And instead of carrying the Legislature by 20 majority on joint ballot, as claimed in our dispatch, we have it by about 80. To show that we were fully warranted in sending the dispatch alluded to, we only need say that we tend. claimed the same majorities and figures in the Conrier, and the Journal did not then except to them, and for the simple reason that it also be- year of her sge. lieved them to be true.

The day after the election we forwarded the following dispatch to the Nashville Union:

LOUISVILLE, Aug. 2, 1859. Louisville given about one thousand Opposi Louisville gives about one thousand Opposi-tion msjority. Mallory is elected by about 800. Thirteen counties heard from, including the city, give Democratic gains of two thousand nine hun-dred over Morehead's vnte. Magoffin's majority will range from seven to ten thousand. We will also have a decided majority in both branches of the Legislature. Ashland district very close, Simma probably elected. Local dissensions have lost us several counties and districts, but our victory on the State ticket is signal and comvictory on the State ticket is signal and con

That dispatch was denounced by the Opposi tion press in Tennessee as natrue, but the result has verified its entire correctness. The Journal at the same time forwarded such dispatches s the following to its friends at Nashville:

LOUISVILLE, Aug. 2. News sheering. Result doubtful. PRENTICE.

LOUISVILLE, 9 P. M., Aug. 8. We have elected four, probably five, Congress-

Now, these were nothing more nor less than monstrous Roorbacks, sent with a full knowledge at the time of their untruth, and solely for the purpose of inspiriting the "Opposition" in Tennessee. The editor of the Journal knows, and every intelligent msn, woman and child in Louisville knows that the news for the Opposition was at no time "cheering" that they everywhere except in Louisville. lost and that the "result" at no time was "doubtful. They knew that when the Journal telegraphed they had "elected four and probably five Congressmen," it had no right to claim more than two, and that the statement that they had "gained thus far in the Legislature," was coined out of whole cloth, and without there ever having been tho slightest foundation for making

But the utter unrelisbility and recklessness o the Journal in its statements of matters pertaining to elections and election results are so notorious, that it is almost a waste of time and space to hold them up before the community.

The Democrat's Fish Story.

There are many very wicked fellows in this country, and some of them seem to have re solved upou playing as many tricks as possible upon the Louisville Democrat. Upon the eve of ceipt of New Goons, suitable for the season, and the late election, they managed, by duping our neighbor's own correspondents at Lexington, to neet the wants of the early trade, purchasers get the Democrat to publish a telegraphic dispatch announcing that Cassins M. Clay had taken the stnmp for Bell. Of conrse, the dispatch was a hoax, for if Mr. Clay bad resolved to speak for are not able to buy those vacant lots and put houses | Bell, he would have done so or died. We all know, however, that he did not make a speech purposes. A business lot of twenty feet anywhere | in favor of the election of Bell, but that he denounced Bell, in unmeasured terms, as a political

Again, our neighbor of the Democrat was imposed upon night before last. He got n letter from Oldham county, which he published in his psper yesterday, under the head of flaming capitals, as a precious document from his own corres pondent. The letter is as follows:

LAGRANGE, Ky., Aug. 10, 1859. Messes. Harney, Hughes & Co.—Gentlemen: I have but a moment's time to write you a line npon the present state of excitement our usually quiet and law-abiding people are now in. F. Seine and his brothers have long been suspected of murdering the Fish family, which occurred some time since, near the town of Westport, on the Ohio river; who are doubtless guilty of the diabolical crime of killing, in cold blood, for a paltry sum of money, Mr. C. Fish and wife, and several children—since which time F. Seine has heen closely watched by a number of suspecting neen closely watched by a number of suspecting citizens of that vicinity, and at last detected in the act of preparing the means for the certain destruction of Mr. B. Bass and his family, in the aame neighborhood; upon which discovery the people have arisen on mosse, captured, and are now in the very act of hanging Seine, without judge or jury! Alas! when will the people come to their sober senses again, and permit the majest of the law to prevail?

D. LOSEU. Our neighbor of the Democrat thought this was

a wonderful letter, and commented upon it as fol-MOB LAW IN OLDRAM COUNTY-A MAN HUNG-TERRI

We call attention to a letter in another part of our paper, giving an account of the excitement preparatory to the hanging of F. Seine, for murdering a wi ole family and attempting to murder another. Such outbreaks are to be regretted, and we trust that some means may have been successiul in preventing this act. The man guilty of the nes richly deserved death, no matter at whose hands, but it is to he regretted that a people, even from justifiable excitement, undertake the execution of criminals. The penalty then is too apt to fall upon the community in which it takes place. We postpone comments, however, till we have further particulars.

Now, we have several objections to our neighbor's Oldham county letter and his comments thereon. In the first place he claims that the letinstead of for the value in gross. The process is ter came from his "own correspondent." This is aliy adopted. Let us .ndicate how it would work to published it, when we remembered no anch in practice and see if all will not agree with no murderous scenes to have occurred heretofore in Oldham county; and, when it was discovered that The owner of a lot, for example, values it at by reading the signature backwards, it suggested \$500 or \$1,000, or \$10,000 or \$20,000. Instead, U. R. Sold. As this was one way of saying you however, of the purchaser paying him a third | are sold, we concluded not to be sold by printing

In the second, place we had ucver heard of any such men in Oldham county as F. Seine. C. Fish, B. Bass or any of the Fish family. We did not know but that F. Seine meant fish seine, C. Fish eat fish, B. Bass black bass, &c. And if such annual or semi-annual rent charge upon the were the meaning of the murderers and the murground. The payments of the purchaser are dered, we did not see any particular reason why F. Seine or the fish seino might not be hung up without Judge or jury.

And, in the third place, we did not like to see the law abiding citizens of Oldham, who had just cast so admirable a vote for the Democracy, puhlished to the world as murderers, mobbers. &c. The good people of Oldham are remarkable for order, and something more than an anonymous letter from our neighbor's own correspondent would have been necessary to make us believe that any of them had committed such a murder, and that the rest of them had raised a mob to hang the felons.

We hope our neighbor of the Democrat will give us those "further particulars" in his issue of this morning. Let us have the whole of our neighbor's "fish atory." It may rival the whale's swallowing of Jonah, but let us have it.

merous enough to charge upon the enemy. This was, moreover, most prudent, for this murderous fire—so fatal to the white coats—did us but little barn. Our conical balls penetrated their dense masses, while those of our Austrains whistled past our ears and respected our persons. It was the irst time I had faced fire, nor was I the only one Well, I am satisfied with myself. True, I dodged the lirst balls, but Henry IV. they say, did the same at the beginning of every battle. It is, in fact, a physical effect, independent of the will.

But this tribute paid, if you could only feel how each shot electrifies you. It is like a whip on a racer's legs. The halls whistle past you, turn up the careful around you. the earth around you, kill one, would another and you hardly notice them. You grow intoxica-

by the tumult of battle. Everybody who has tried it, testifies to the pe cultar intoxication that is produced by being it battle. There is an infatuating influence about the smell of powder, the shrill whistle of a bullet, and the sight of human blood, that instantly transforms men from cowards to heroes-from women some times to monsters. None can tell of the na-ture and mystery of that influence, but those who have been in the fray themselves.

Dr. Tom O. EDWARDS' SINGING MOUSE .- Dr. Tom O. Edwards, who lives on Lorinder avenue, above the Lorinder House, has a csnary, which is a very fine ainger. Sometime since the aervant girl, who was sitting one night in the kitchen, was much astonished at an imitation of the eanary's notes, which proceeded from a cupboard. Thinking, perhaps, it was the devil, abe precipitately fled, but the next night and the next it was no better Investigation, however, revealed the cause. The cupboard was leftopen, and a watch was placed, and soon after a mouse came out, got up on its haunches, curled its tail squirrel fashion over its repeated night after night, and has been witnessed by hosts of people. This is a very aingular phenomenon, and leads one to believe that mice are capable of better things than to nibble cheese or afford dinners to prowling cats .- Dubuque

FULTON. N. w York, August 11.—The steamer Fulton, which left Cowes on the evening of the 27th ult., arrived here this norning. She brings 130 passengers, and reports having passed on the 27th of July, Ships Mercury and Wurtemberg going to Havre; also the Vanderbilt.
The Fulton's strikes are not so lele as those

The Fulton's advices are not so lale as those furnished by telegraph from Halifax, but her papers are one day later than have been received.

The advices from Paris indicate unpleasant eelings toward England. An article in the Moni-eur, discrediting the rumored probability of an accord between France and England on the question of the Congress and the general disarma-ment, had produced a painful impression. The London Herald's Paris correspondent says he banding together of France, Russia, and Ausris, and the immense naval preparations of rance, render it difficult to disbelieve the universal report of a great blow being contemplated against England. This was written previous to the more pacific action of the Emperor of France.

The French steam navv is to be increased to 15 men-of-war, exclusive of 72 transports.

The St. Petersburg papers publish the treaty between Russia and China, which had been ratified by the two Emperors. It grants leave to Russia to send ambassadors to Pekin, promises protection to Christian missionaries and authorzes a monthly mail service between Kiochta and

rock on which she is lying. ARRIVAL OF THE STAR OF THE WEST. Naw York, August 11.—The advices from the athmus are unimportant. The sloop-of war St. Mary's sailed from Panama on the 25th for Ite

alego.

Advices had been received from the revolution ary movement in Curthagena to the 23d of July, when the Liberal party had pronounced against the authorities and appointed Juan Jose Nic to be provisional ruler.

The California markets were dull, and there was but little prospect of immediate improvement.— The East India and China productions were de clining in cousequence of heavy stocks on hand.

LYON'S MAGNETIC POWDERS,

Will destroy Garden Insects, Cockroaches, Red Bugs, Fleas Anis Moths, and all pests of the vermin kind. The importance of a reliable article of this kind is in-estimable. In warm weather all nainre teems with these nnoying foca. This powder is the only article ever dis-overed which will exterminate them. A company of otanists, from the Horticultural Society of Paris, while midst the ferns of Asia, observed that all insects lig amidst the ferns of Asia, observed that all insects lighting upon a certain kind of plant very soon dropped doad. This fact was made use of to guard their night camps from these intruders. Quantities of the plant were broughthome by Mr. E. Lyon, and found a positive insect destroyer in every experiment. It is simply a powdered leaf, chemically prepared to resist the effect of age and climate. LAURANCE REID, Prof. Chemistry, N. Y. Hospital, Mr. John L. Rown, Snperintendent of the New York Hospital, says, "he has expelled all the hngs, ants, roaches, moths, etc., with Lyon's Powder, and finds it ol immense value."

Every gardener and house-keeper must have a direct interest in an article of this kind. Reference can be made to the Astor, St. Nicholas, and Metropolitan Hotels; to Judge Meigs, President of the American Institute, James Gordon Bennett, Gen. Winfield Scott, Cyrus W. Field, L. M. Pease, of the Five Points Mission, etc., etc. Judge Meigs asys, "This discovery of prof. Lyon is of national importance. The Farmers' Club hava testedit thoroughly. It will destroy locosits, grasshoppers, ants, moths, bugs, and all vermin. Garden plants can be preserved, and house made pure."

Arrangements are now made, through Messrs. Barner & Park, of New York, to have it sold throughout the world. Many worthless limitations are advertised. Be cautious!

During the night previous the river had risen an inch at the head of the falls. and 3 inches at Portland, with the anticipation that the river would rise quite rapidly during the day from the effects of the heavy rain that had day from the effects of the heavy rain that had fallen. A light rain prevailed during the day Wednesday, and at midnight a heavy rain commenced falling, and it poured down incessantly for several hours, flooding the streets, and making flooding the streets, and making flooding the streets, and flooding the streets and flooding the stree many crossways utterly impassable. Beargrass creek was much swollen—an evidence of heavy rains—and the officers of the Poland, which arrived yesterday morning, reported Salt river a perfect flood of waters, its current sweeping en-

irely across the Ohio. Silver creek, just opposite the foot of the falls. was greatly swollen by the rains, sending forth a mighty stream of water, and, if the rain extended to the Kentucky river, we may confidently look

for a good rise here.

At Pittsburg the river continues to recede, but at Cincinnati it had risen 8 inches. At Pomeroy, Wednesday evening, the river was swelling, with feet water in the channel. The Cumberland river, at Nashville, was again

rising Wednesday, with heavy rains.

The Chancellor, Capt. Malborn, arrived from New Orleans yesterday, coming through direct, the sand hars proving no impediment whatever to her progress. She reports the Steve Decaur aground at Scuffletown.

The Mariner Schk at the Flats.—The Mariner, Capt. Dravo, from St. Louis, with a cargo of hemp, hidea, and barley for upper Ohio ports, was ank by striking a log at Grassy Fiats about midsight Wednesday. The enag or log struck her bottom about midships, and impaled her, as it were, to the spot, coming up through her bottom and main deck. She was trying the middle, or old channel, and lies sunk in water ten to fifteen inches over her main deck. The freight in the hold is badly damaged. It is thought she can be raised, as the hatches were "buttoned" down and the pumps set to work.

Capt. Dravo came to the city yesterday, and got the Pink Varhle to go to the boat with a barge to lighten her, and has strong hopes of successfully raising her. The boat belongs in Pittabnrg, where she is insured for \$9,000. The boat is valued at \$14,000.

Wheat monopolized most of the interest of the general marker to-day. The downward course of this article continues unchecked, and in fact there occurred a decline to-day more extensive than was experienced during the daily fails of the last half of the week just passed. Poor spring acid as low as 5cc, and strictly prime red and white no higher than \$1@1 05 \$2 bushed Supplies of course were liberal to have induced so decided a change, and deliveries amounted to 1,500 ts,000 sacks. Corn was so very duff, and so large a proportion of transactions reported private terms, that I portion of transactions reported private terms, that it was easy to infer that prices were lower. Whisky seemed heavy at 250 g gallon. Oats and Flour stood as they did at the date of our last, and Rye was cull, lough not quotably lower.

Decrease in Circulation 498,691
Decrease in undrawn Deposits 1,550,640
The Bank Statement, in respect to loans and specie, result much as anticipated in our weekly review. The circulation goes up about \$490,000 a usual on quarter day, when a considerable sum in small notes is employed in the settlement of rents and other quarterly dues. The denoist line continues to a days. The deposit line continues to go dawn, and is now lower by seventeen milions than on the Soth of April. The pecle average remains about twenty millions, which is abber better than was looked for on the present stare. ment. Owing to the heavy reduction in deposits, the percentage of specie is still 26 P cent. and a fraction, or full 6 P cent. above the Associated Bank standard. The statement, altogether, is one that will add to the steadiness of the Money market, without relaxing the ion of the Banks in regulati cles of the Fail trade and excha-

From Washington. Washington, Aug. 11.—The delegates representing the railroads of the Southwestern and middle route between Washington and New Orleans, commenced their session here to-day. Their business is with reference to the transportation of the great mail from Portland, Me., to New Or-leans, and to agree upon a joint hid for the performance of the service.
As the Orange and Alexandria Railroad to
Lynchburg, and the remaining part of the Missis-sippi Central Railroad will be incished by the 1st

of January, at which time the next contract is to take effect, the delegates confidently say that they will be able to carry the mails between New Orleans and New York in 8½ days. Another object of the present meeting is to make uniform arrangements concerning the general passenger and freight business. The National Teachers' Association here have elected J. W. Bulkley, of Brooklyn, N. Y., as President for the ensuing year, and decided to publish a monthly periodical in the furtherance of the cause of education. This afternoon the delegates had a pleasant

ime in visiting President Buchanan.

A certain Cure for Fever and Ague, Remittent and Intermittent Fever, and all Billious Complaints.

all Billious Complaints.

To is a well known fact that the different fevers and billious complaints are caused by the polsonous miasma and exhalations from the surface of the earth, which are taken into the system by respiration. To neutralise this subtle-poison and counteract its effect upon the system, is therefore what we have to aim at, and with this vlew the "French Tropical Feverand Ague Mixture" has been prepared.

The high reputation which this medicine has gained within so short a time in the South and West where it has been introduced, is a sufficient proof for its superiority above all other compounds of the same kind. As an antidote to malaria, this medicine sfands unrivalled, and as it is purely vegetable, it can be safely given to children and delicate patients, not only in case of fever, but in all eases where a good tonic is required. The French Tropical Fever and Ague Mixture is prepared by i.B. LAPLACE, Chemist and Drugglet, New Orpared by B. LAPLACE, Chemist and Druggist, New O
